

PRESS RELEASE

MARCO NASSI APPOINTED CEO OF ASG SUPERCONDUCTORS (MALACALZA FAMILY COMPANY)

Genoa, September 19, 2023 - ASG Superconductors SpA announces that the Board of Directors chaired by Davide Malacalza has appointed Marco Nassi as CEO.

Marco Nassi, a graduate in Nuclear Engineering, has numerous and diversified international experiences both in science, fusion and superconductivity, and in areas of concrete application of innovation and "go to market" in industrial processes and markets.

"I have enthusiastically welcomed the opportunity to join my path with that of a high-tech company with a wealth of highly specialized resources, ASG also is poised to increasingly target superconducting applications even in areas closer to everyday life such as energy and medical. These are opportunities in key areas in addition to the company's traditional commitments in particle physics and magnetic confinement fusion, which are and will be increasingly central to the development of a more sustainable and innovation-intensive Planet." Said Marco Nassi CEO of ASG Superconductors.
